Directors/IRISET, IRICEN, IRIEEN, IRIMEE, IRITM,
Chairman, All India Railway Recruitment Boards,
Managing Director/ All Railway PSUs.**

Sub: IPv6 Adoption on Indian Railways.

As per "National IPv6 Deployment Roadmap" issued in July'2010 by the Government of India, "All major service providers will offer IPv6 services by December'2011" and "All Central and State Government Ministries and Departments including its PSUs, shall start using IPv6 services by March' 2012."

Department of Telecom Ministry of Communication and Information Technology has informed that the targets as per the "National IPv6 Deployment Roadmap" is to be considered sacrosanct and all efforts are to be made for timely implementation of IPv6 in the Government Sectors.

As a first step all government websites that are available on public IPv6 network should be migrated to IPv6. It is understood that Railways may have to do "content migration from IPv4 to IPv6" as well as IPv6 enabling their network for this purpose.

All Railway Units including Railway PSUs may, therefore take necessary steps for meeting the targets as laid down in the "National IPv6 Deployment Plan."
